Annex 7 - Practical Examples Template

Introduction

This table is intended as a tool for countries working with the toolkit. It allows you to analyse methods used for accessibility testing in a structured way. It helps you gain insight into different approaches while encouraging a critical view of your own testing practices.

Title	Indicate the title or name of the method.
Date	Indicate the date (start and end date, if applicable).
Description	Briefly explain: • What the method is • Who the method is intended for • What the method has achieved (what good results have been obtained)
Target group	Write down who the method is intended for.
Strengths	What is good about this method? List the strengths.
Areas for improvement	What could be improved about this method? For example: there is no action yet for people with visual impairments.
Explanation	Space for additional comments or explanations.
Further information	Provide source, weblink and/or contact details for further information.
