WHAT DOES THE TOOLKIT CONTAIN?

1.ACCESSIBILITY LEGISLATION

Explanation of national and international regulations

2.SETUP & RECRUITMENT TEST TEAM

Step-by-step plan and tips for a diverse team

3.TESTING METHODS PER DISABILITY

Guidelines for visual, auditory, intellectual, physical disabilities and ASD.

4. ACCESSIBILITY CHECKLIST

Clear questions per location.

5. ACCESSIBILITY ADVICE

Template for drawing up accessibility advice.

6. ASSESSMENT FORM TOOLKIT AND TRAINING

Form for assessing the quality of the toolkit and training.

7. PRACTICAL EXAMPLES

Inspiring cases from local authorities and organisations.

THE IDEAL TESTTEAM

Consists of people with different disabilities:

- **Visual impairment**
- **Hearing impairment**
- **Physical disability**
- **Intellectual disability**
- **Autism**
- **Coordinator (preferably an expert by experience)**

Even a non-ideal team can test, provided this is stated.

SAMPLE QUESTIONS FROM THE CHECKLIST

- Is the entrance wide enough?
- Is there clear signage with colour contrast?
- Is there an accessible toilet available?
- Is there a quiet room for visitors who are sensitive to stimuli?

DRAWING UP RECOMMENDATIONS

After the test, you draw up accessibility advice:

- Description of strengths, areas for improvement and deal breakers
- Specific recommendations
- Reference to relevant legislation

Toolkit Testteams4ALL

The Toolkit Testteams4ALL has been developed to enable people with disabilities to test the physical accessibility of buildings and locations themselves. This makes it easier to improve accessibility.

PURPOSE OF THE TOOLKIT

The toolkit offers practical resources for:

- Putting together test teams.
- Conducting accessibility tests.
- Drawing up clear recommendations for organisations.

WHO IS THIS TOOLKIT FOR?

- Adults (18+) with disabilities
- (Interest) organisations focused on education or accessibility
- Local and regional initiatives related to accessibility
